and innovation

Focusing  
on your  
outcomes

Creating  
a better future

Innovating  to solve your  
future challenges

## HP Living Progress

Creating a better future for everyone through our actions and innovations.

# HP LIFE e-Learning

A woman with short, curly brown hair, wearing a light blue button-down shirt and tan trousers, is walking on a paved path in a park. She is holding the hand of a young boy with short brown hair, wearing a grey t-shirt, camouflage shorts, and a backpack. The boy is holding a small brown bag. They are both smiling and looking down at the path. The background is a lush green park with trees and a white picket fence.

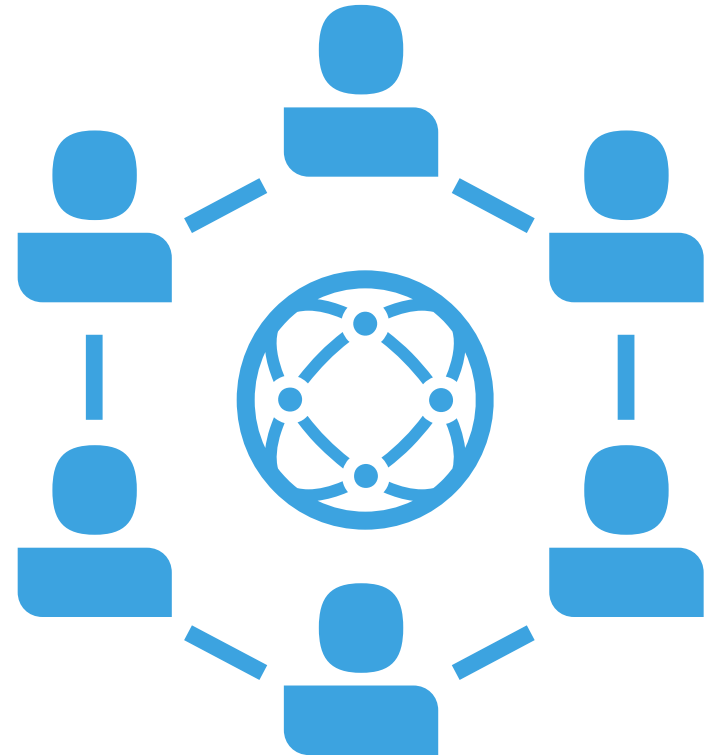

## A global need

- Millions of people around the world seek opportunities to learn and grow, and individuals, families, and communities depend on innovation for economic empowerment.
- Working together to confront these challenges can help spur local and global economic growth.

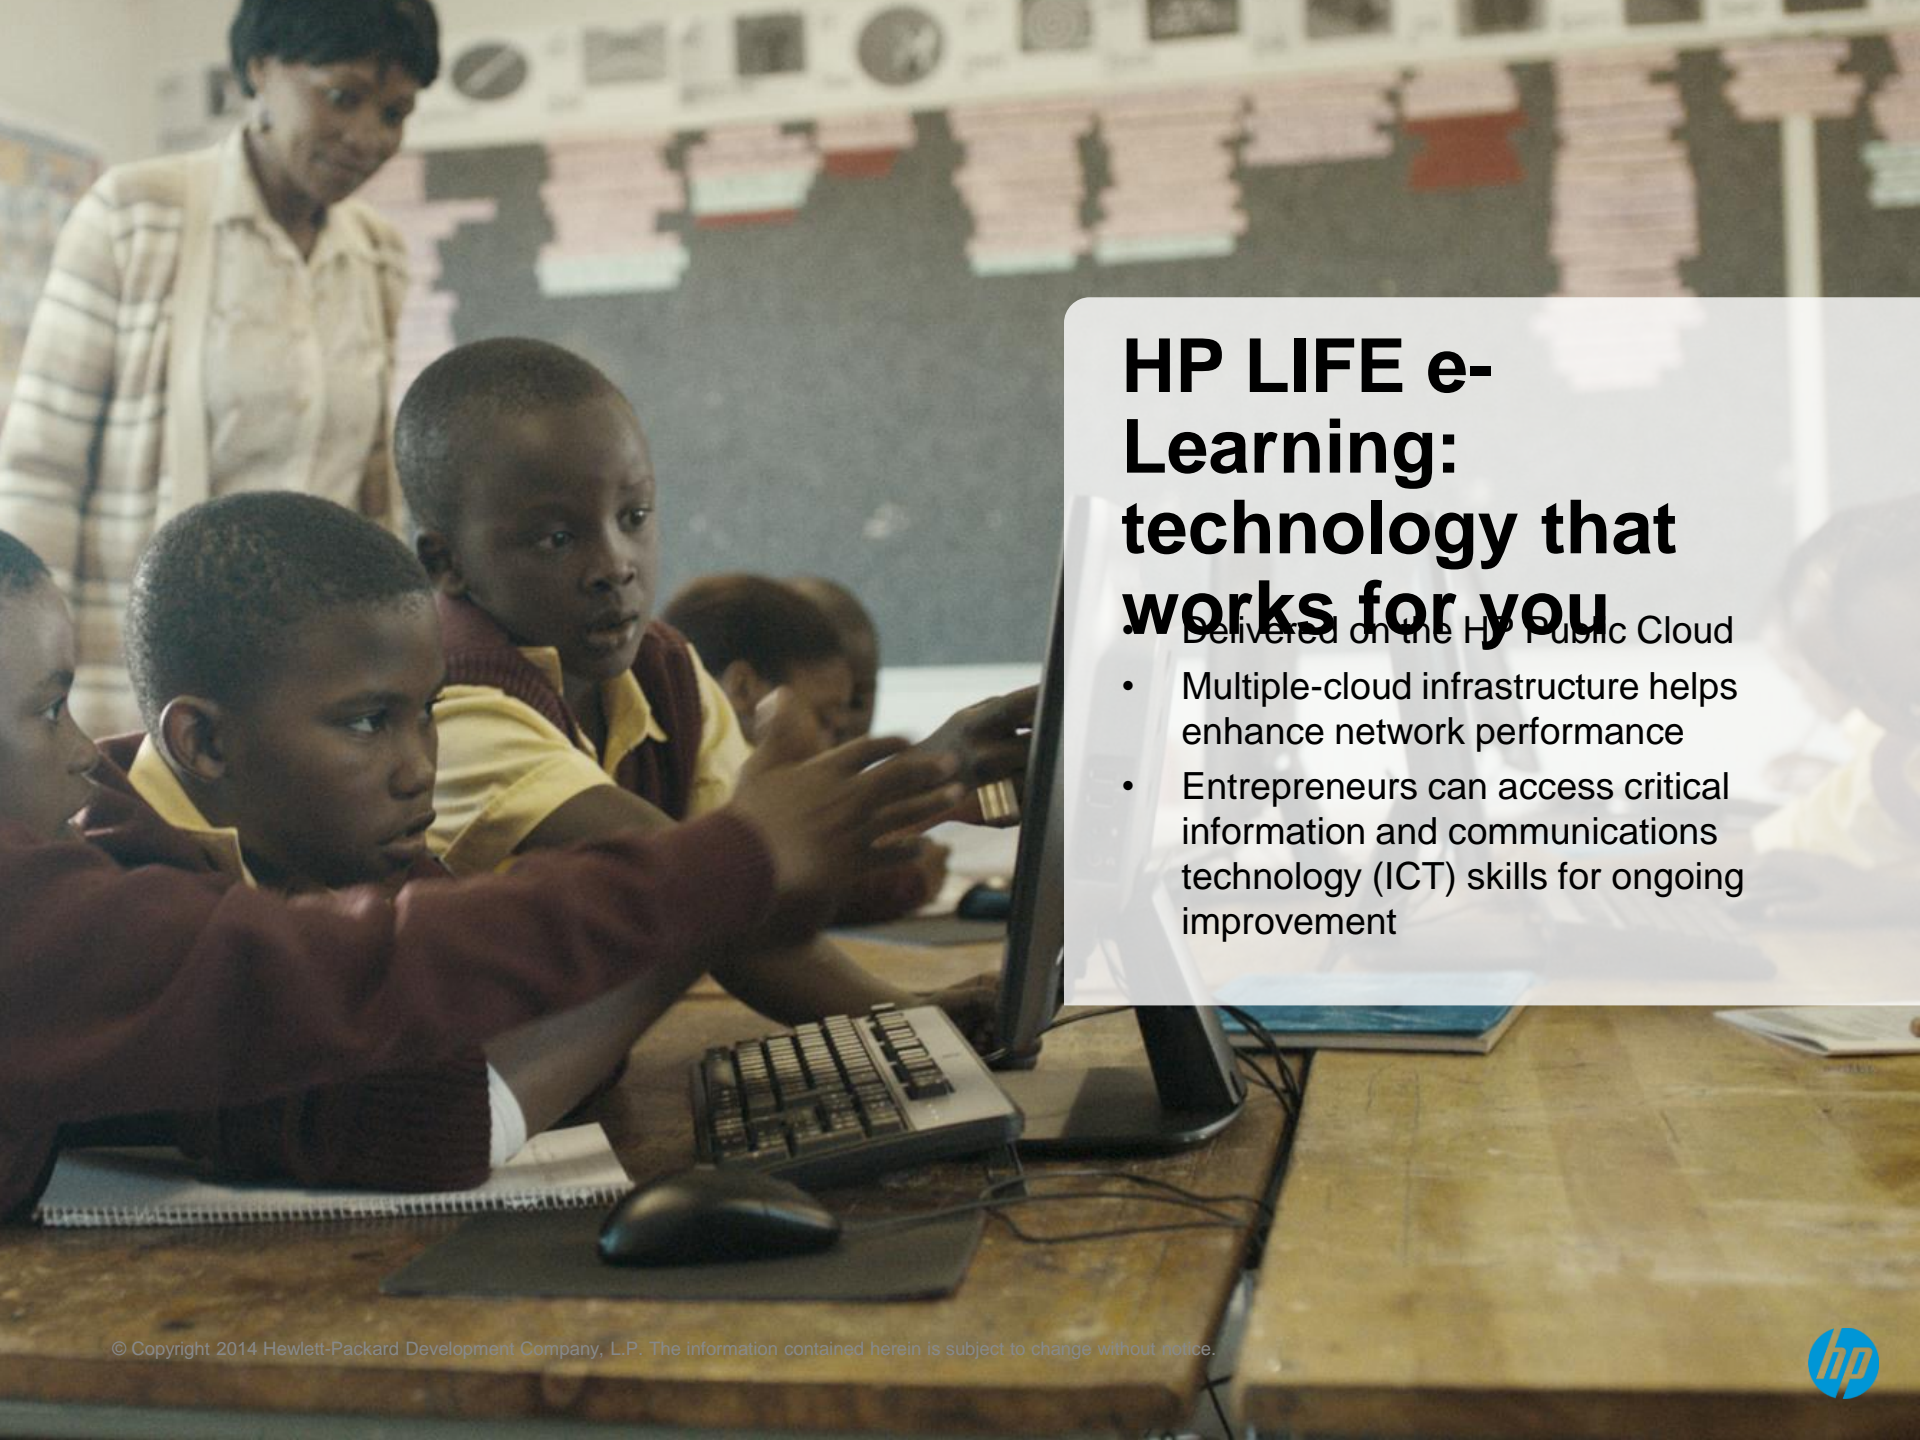

# HP LIFE e-Learning

## Creating economic progress and opportunities for more people in more places to learn and grow

- Free, cloud-based IT and business-skills training available to anyone with an Internet connection
- Self-paced, online learning combined with collaborative, face-to-face learning
- Extensive, interactive course offerings covering core business competencies, delivered in multiple languages
- Global community of learners and leaders

A photograph of a classroom setting. A female teacher stands in the background, looking on as two young students sit at a desk. The student in the foreground is pointing at a computer monitor, while the student behind him looks on. The desk has a keyboard and a mouse. The background wall is covered with various educational posters and charts.

# **HP LIFE e- Learning: technology that works for you**

Delivered on the HP Public Cloud

- Multiple-cloud infrastructure helps enhance network performance
- Entrepreneurs can access critical information and communications technology (ICT) skills for ongoing improvement

**Make it matter.**
